

Student: First Login → First Use

A short checklist from student registration through the first daily feedback submission.

Your first-use checklist

1	Choose Student Portal from the portal selection screen.
2	Choose New User and complete the student registration.
3	Complete the student profile details requested by the application.
4	Complete the parent consent / OTP step when the school's onboarding configuration requires it.
5	Complete the student questionnaire when it is enabled for your school.
6	Enter the Student Portal after onboarding is complete.
7	Open the enabled academic / learning area where daily lecture feedback is presented.
8	Open the relevant daily lecture feedback item.
9	Select the understanding response requested on screen and submit the feedback.
10	Return to the Student Portal to continue with Talent DNA, Academics, Achievements, Portfolio, Events, Consultations, Results, Rankings and other enabled modules.

When you are ready

- Parent approval is intentionally used for protected student actions where required.
- School feature configuration can control which student modules are visible.
- Submitted daily feedback participates in the platform's existing feedback history and credit logic.

Talent Passport User Manual • This guide explains the current application flow and does not replace account security or school-controlled settings.
